

ALUMINIUM HANDRAIL & ACCESSORIES.

BMARCHITECTURAL

Our slotted Aluminium Handrails offer a practical and cost-effective alternative to stainless steel handrails on modern frameless glass balustrades. They are available in an anodised brushed silver and black finish to match our frameless glass channels.

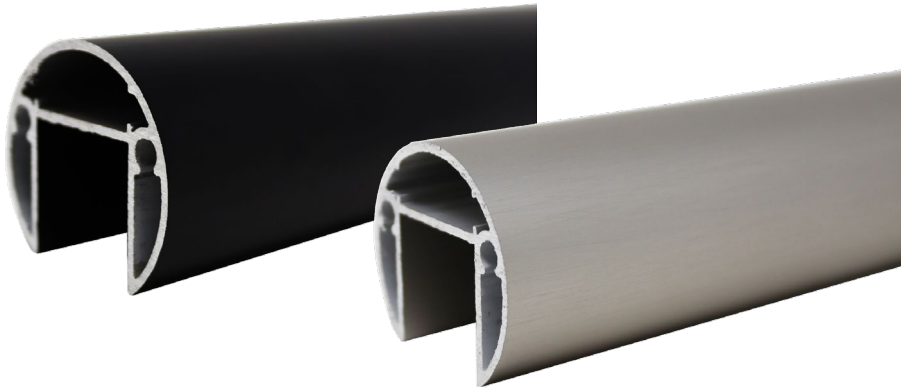

Standard connectors and end caps complete the system, delivering a sleek finish with proven performance that is easy to install.

SYSTEM BENEFITS.

- ✓ Cost-effective alternative to stainless steel
- ✓ Tested to 1.50kN for reliable strength and safety
- ✓ Slotted design for ease of installation
- ✓ Anodised (25 μ) for enhanced durability
- ✓ Available in 3m and 6m standard lengths
- ✓ Choice of two stylish colours, brushed silver and black, to match frameless glass base channels
- ✓ A range of accessories maintains continuity and user comfort at joints and run ends
