HANDRAIL EASYCLAMP

To differentiate the Eazyclamp range from other systems and methods of construction, various advanced features have been incorporated into the design, production and finish of the fittings, with the clear aim of optimising the high quality and long life of the product. You can therefore be confident in your choice of brand.

TOP QUALITY GALVANISED FINISH

Eazyclamp components are hot dip galvanised to

BS EN ISO 1461:2009

Each product goes through stringent quality control to ensure a consistent and reliable product.

EASY RECOGNITION

Each fitting is clearly marked with the type and size for easy identification.

DOUBLE COATING

Fittings feature a secondary coating over the hot dipped galvanising to enhance corrosion protection and to extend the life of the product.

STAINLESS STEEL SCREWS

To increase corrosion resistance and durability, components are fitted with stainless steel screws.

MORE THAN STEEL

STANDARD RANGE

- Quick to assemble with a simple hexagon key
- For applications up to 1.5Kn/m
- Consistent product casting quality
- Galvanised malleable iron pipe fittings
- Tested for vibration endurance
- Manufactured to BS EN 1562:1997
- Finish: Double - Coated Hot dipped galvanisation to BS EN ISO 1461:1999
- 316 Stainless steel set screws (option for security pins)
- TUV-Rheinland Safety Approved

400 SERIES - PREMADE POST

A rapid assembly and cost effective solution for industrial and workplace safety barriers. Ideal for machinery guardrails, zone segregation and personnel safety.

- Smooth, in-line handrail range.
- Compatible for use in conjunction with the standard Interclamp range.
- Helps to meet compliance with the Equality Act 2010 (formerly DDA) and Building Regulations Part M 2013.

- Saddle-type assembly or internally expanding to suit 3.25mm wall tube.
- Optional O-rings for ease of installation and aesthetically pleasing finish.
- Easy accommodation of slopes and access ramps.

HANDRAIL STANDARDS

HANDRAIL STANDARDS are the benchmark for industry. Available with a wide range of fixings and shank diameters. You can be confident our handrail will meet your needs and UK standards.

COMPREHENSIVE RANGE

Shank availability: 33.7mm (25); 42.4 (32) or 48.3mm (40) ensures suitable sizing for whatever requirement.

QUALITY FINISH

Supplied as either self colour (SC) or Galvanised (GA) finish.

BESPOKE SIZING

Simply state the required measurement when ordering.

VERSATILE FITTINGS

Available with a number of base fixings (see overleaf)

**FOR A FAST,

FIXED ACCESS LADDERS CAGED OR UNCAGED

- Available as kit components or fully bolted construction to enable self-assembly on site.
- Available with hooped cage & step over to connect to a walking platform.
- Ladder length up to 6m
- Stays 1500mm centres (Max)
- Bolted splice to suit desired height
- Constructed from mild steel S275, generally to BS421
- Finish: Hot Dipped Galvanised, according to BSEN ISO 1461

Exploded View (not sold as individual items).

Ladders are designed in accordance with BS5395 and are designed to suit specific applications.

Please contact our sales office ready with your fabrication drawing to obtain a quote or technical assistance.

FIXED ACCESS LADDERS

LADDER KITS

AX1 - 2000-2300mm Rise Ladder

Ref	Description
AX2000	Type 1 - Rise ladder 2000 - 2300 mm

Component List
Long ladder section (2500 mm)
Top step (4 x M12 x 50 mm bolts inc.)
Ladder feet (pair 4 x M12x35 mm bolts inc.)
Ladder stays (pair - 4 x M12x35 mm bolts inc.)
Upper hoop Ø700 x 750mm (4 x M12x36 mm bolts inc.)
Lower hoop Ø700 x 750mm (4 x M12x36 mm bolts inc.)
Splice plates (pair - 6 x M12x35 mm bolts inc.)
Upper cage strap (set 5)
Lower cage strap (set 5 - cage splices and 10 x M12x50 mm bolts inc.)

AX2 - 2400-2700mm Rise Ladder

Ref	Description
AX2500	Type 2 - Rise ladder 2400 - 2700 mm

Component List
Long ladder section (2500 mm)
Ladder extension (pair - ladder feet, 4 x M12 x 35 mm bolts inc.)
Top step (4 x M12 x 50 mm bolts inc.)
Ladder feet (pair 4 x M12x35 mm bolts inc.)
Ladder stays (pair - 4 x M12x35 mm bolts inc.)
Upper hoop Ø700 x 750mm (4 x M12x36 mm bolts inc.)
Lower hoop Ø700 x 750mm (4 x M12x36 mm bolts inc.)
Splice plates (pair - 6 x M12x35 mm bolts inc.)
Upper cage strap (set 5)
Lower cage strap (set 5 - cage splices and 10 x M12x50 mm bolts inc.)

AX3 - 2800-3200mm Rise Ladder

Ref	Description
AX3000	Type 3 - Rise ladder 2800 - 3200 mm

Component List
Long ladder section (2500 mm)
Short ladder section (1250 mm)
Ladder extension (pair - ladder feet, 4 x M12 x 35 mm bolts inc.)
Top step (4 x M12 x 50 mm bolts inc.)
Ladder feet (pair 4 x M12x35 mm bolts inc.)
Ladder stays (pair - 4 x M12x35 mm bolts inc.)
Upper hoop Ø700 x 750mm (4 x M12x36 mm bolts inc.)
Lower hoop Ø700 x 750mm (4 x M12x36 mm bolts inc.)
Splice plates (pair - 6 x M12x35 mm bolts inc.)
Upper cage strap (set 5)
Lower cage strap (set 5 - cage splices and 10 x M12x50 mm bolts inc.)

EAZY ROOF

FREE STANDING ROOF EDGE PROTECTION

- Easy to erect and install: modular system based on pre-assembled uprights, 2.5m rails and slide-on weight.
- Safe: Fully tested to EN13374:2004, Class A
- Long-lasting: between 15 and 25 year lifespan (depending on location) based on galvanised tubes and A2 stainless steel fixing screws

- Non-Penetrative: Can be used on all roofing surface materials.
- Can be used as a temporary or permanent structure
- Cost Effective
- Versatile: available as Standard, Top Fix, Parapet-Fix or Collapsible.

PROTECTION FOR HIGH FLOOD RISK AREAS.

**NEW!
PRODUCT
LINE.**

More and more often, we are seeing how inadequately many buildings are protected from the consequences of flooding. Flood water and mud slides penetrating into property put lives and possessions at risk. And they always wreak a high financial cost in terms of damage. Our patented galvanised steel flood protection system now gives you the ability to create effective bulkheads to seal off openings in endangered buildings.

Modular design, the system is universally applicable and can be used in variety of different situations.

The patented securing system enables components to be installed quickly whenever catastrophe looms, adapting to different wall thicknesses and surrounding masonry to provide a firm seal for openings. The highly resistant steel wall that it forms provides active security and a high level of protection in flood-threatened areas.

FLOOD BARRIER

SIMPLE INSTALLATION

Manufactured in galvanised steel, the guide tracks, glued with a seal and pre-drilled, are secured with dowels next to the opening or in the reveal and sealed at the base.

The slats are then adjusted to length and prepared seals are stuck on and are slotted into the lateral tracks, tightened with the two clamps and the vertical connection points are sealed.

BALUSTRADE FRAMELESS GLASS BALUSTRADE EAZYFIT 1.5K SG

- Only adjustable clamp system: Easy to line-up glass
- Tested up to 1.5Kn (BS 6180)
- Dry-glazed clamp system for clean and fast installation (no epoxy sealant required) and easy replacement of broken glass panels
- Cost effective: Reduced labour time on site (Fixed every 200mm)
- Light-weight & Pre-drilled profiles: Off-the-shelf kit
- Available as Base or Side Fix to suit 12 to 21.5mm glass
- Suitable for indoor and outdoor applications (totally anodised extrusion)
- Top rail (slotted tube), gaskets and connectors available ex-stock

BALUSTRADE MESH

Architectural woven wire mesh contains a wide variety of textures and patterns that are meant to be as beautiful as they are functional.

Available in Stainless, Mild Steel, Aluminium, Bronze, Brass, Copper, Galv or Galfan
- Please specify when ordering.

Pre-crimped woven wire mesh is constructed of wires that have been crimped prior to weaving them together in a loom. Crimping the wires before weaving provides stability and consistency in larger spaced wire mesh. Various crimping styles have been developed over the years to improve manufacturing efficiencies, function, and aesthetics.

Suitable for the following applications: Balustrades, Wall Cladding/Facades, Interior Design, Partitions and Fencing.

MORE THAN STEEL

BALL PROOF FLOORING STEEL FLOOR

SPECIFICATION TO:
BS4592-0:216+A1:2012

IF YOU SPECIFY, DISTRIBUTE, PURCHASE, FABRICATE, INSTALL STEEL GRATINGS, YOU HAVE A RESPONSIBILITY TO PROVIDE COMPLIANT PRODUCTS TO THE LATEST SPECIFICATION.

20mm BALL PROOF GRATING

To be used where the working platform or walkway is above a place where people are working

The maximum openings shall not permit the passage of a 20mm diameter sphere.

Typically used on walkways above machinery and permanent working areas, where the risk to personnel from large objects, falling from above, is critical

35mm BALL PROOF GRATING

To be used where the working platform or walkway is above a place where people pass through occasionally, the maximum openings shall not permit the passage of a 35mm diameter sphere.

Typically used on maintenance access, industrial plants, un-manned substation modules, data centres, where site access is limited and occasional.

UTILITY GRATING

To be used where there is no risk of personnel passing below the working platform or walkway.

Typically used on ground level shallow trenches, above water channels in treatment works or placed on solid floors to elevate walking areas from contaminants.

PRESS LOCKED GRATING

VERSATILE & DURABLE

NEW! PRODUCT LINE.

Press-locked steel grating also known as pressure locked grating. The grating is made of mild carbon steel, stainless steel or aluminium. With high load bearing capacity, non-slip, anti-corrosion and easy to install, pressure locked grating is versatile and can be used for flooring, fences, in-fill and all kinds of cover in the factories, civil and commercial buildings.

Key benefit is that in normal circumstances, there is hardly any scrap or wastage from Gross sizes as you produce to the length and width dimensions required.

PERFORATED PLANKS

- Profile planking for walkway, platforms and roofs
- Ideal for wet working places (37% permeable to air)
- Minimal maintenance and low installation cost
- Safe: ball with a 15mm calibre - ball can't fall through
- Slip-resistant surface, anti-slip class R12/13
- Split and embossed surface with serrated finish
- Available in galvanised steel and aluminium

50 x 50mm

GRP CLIP

- 316 stainless steel
- Non load-bearing clips (help to stop lateral movement only)
- Set to include: top clip and bottom "J" clamp, 50mm long M8 bolt, nut and washer

GRP SAFETREADS

- Moulded Square grating
- Similar look to steel flooring
- For wide span applications
- (up to 1.5m based on 5 Kn/m² load factor)
- Gritted anti-slip top surface
- Available in Grey, Yellow & Green with Hi-Vis to suit

GRP SAFECOVERS

- Standard 3mm thick with a 55mm deep drop (available up to 60mm)
- Standard size – 1200mm x 300mm (other sizes on demand)
- Standard Colours – Grey, Yellow or Black (Complete with a Nosing colour to suit)
- Ideal for retrofit and provide good anti-slip surface
- DDA compliant

GRP SAFENOSE

- Gives added anti-slip factor to existing Stairs
- Available in two sizes: 55mm x 55mm & 55mm x 70mm
- 3000mm lengths
- Standard colours – Black, White, Yellow or Grey
- Easy fit – Screw or Glue
- DDA compliant

MORE THAN STEEL

EXPANDED METAL WALKWAY MESH

- Mild steel in self colour or galvanised (aluminium or stainless steel on demand)
- High strength-to-weight ratio (Tested and measured load bearing capacities)
- Anti-slip surface
- Economical solution for walkways, stairtreads and gantries
- Option to weld or join or clip the sheets in situ
- Standard sizes or Fabrication to size

-  HIGH STRENGTH
-  ANTI-SLIP
-  LOW COST

INDUSTRIAL WELDED MESH

Product Features

- Manufactured from copper washed direct drawn steel wire, conforming to BS 1052:1980
- Offered in a wide range of wire diameters from 2.0mm to 4.75mm
- Five standard panel sizes available
- Wide range of mesh configurations available
- Resistance welded at every intersection to give maximum strength
- Also offered as hot dip galvanised finish to BS EN ISO 1461:2009

Applications

- Window Guards
- Machinery Guards
- Cages and Lockers
- Shelving
- Racking
- Hayracks
- Pig Flooring
- Security Grill

PRISON MESH 358 PRE-GALVANISED PRISON MESH

Product Features

- Material: Pre-galvanised or Galfan
- Applications: Home Office buildings (High-profile prisons, secure hospitals, etc)

- Key features: finger-proof, anti-climb and cutter-resistant
- Excellent through-visibility
- Available in 3658mm wide and 6096mm high
- 3" and 0.5" mesh apertures panels are provided in 44mm wire (bespoke design on application)

Panel Finishes Available

A wide range of additional colours are available, please contact our sales team for further details.

PERFORATED SHEET

- Hole shapes: Round, Square or Slotted (others on demand)
- Hole size from 0.5mm to 40mm
- Pitch: Diagonal or square
- Material: Mild steel (self-colour or galvanised), Stainless Steel (304 or 316) or Aluminium
- With margins or unperforated area
- Material thickness from 0.3mm to 10mm
- Standard sheets: 2x1m or 2.5m or 1.25m

PROFILED FENCING

TWIN 656

- Rigid panel due to double 6mm diam. horizontal wires
- 22mm spike on top edge of panel to deter climbing (panel can be inverted if spikes are not required)
- Galvanised wire to BS EN 10244-2:2001 class D (triple coat anti-corrosion architectural finish available; min. quantities apply)
- Available in Standard RAL 6005-Moss Green & 9005-Jet Black
- Elegant and simple design
- Suitable for multi-lift installation

Fence Height Inc Spike (mm)	Panel Width (mm)	Horizontal Wire Dimension (mm)	Vertical Wire Dimension (mm)	Panel Weight (kg)
1830	2510	5.50 +/- 0.06	4.50 +/- 0.05	21.1

RAL available from stock

PRISON MESH

358 PRE-GALVANISED PRISON MESH

Product Features

- Material: Pre-galvanised or Galfan
- Applications: Home Office buildings (High-profile prisons, secure hospitals, etc)
- Key features: finger-proof, anti-climb and cutter-resistant
- Excellent through-visibility
- Available in 3658mm wide and 6096mm high
- 3" and 0.5" mesh apertures panels are provided in 44mm wire (bespoke design on application)
- Panel width 2515mm

Panel Finishes Available

A wide range of additional colours are available, please contact our sales team for further details.

MORE THAN STEEL

ULTRA MESH FENCING SYSTEM

Each kit comes supplied with the following:

- 3m Fence panel (1.8, 2.0 or 2.4m high);
- 'In-line' post - 1 post per kit
- Easy-fixing security clips and bolts
- End cap

Features

- 60x60 RHS Post
- 3m post centres
- 5mm wires
- Galvanised and powder coated
- Supplied in RAL 6005 Green

Applications

Our fencing kits are ideal for many purposes below are some of the more popular uses.

- Commercial sites
- Transport: Ports, station and airport
- Education: Schools and Colleges
- Residential areas

Dimensions

Mesh size: 200 x55mm
Wire dia: 5mm
Top edge projection: 30mm
Triangular folds: 3
Panel width: 3000mm

Unique end caps supports panel during fitting enabling one-man installation.

1.8m Fencing

Ref	Kit	Description
32101	3m Kit	1.8m high fencing - 3m wide panel, 1 in-line post and all fixings.

2.0m Fencing

Ref	Kit	Description
33101	3m Kit	2.0m high fencing - 3m wide panel, 1 in-line post and all fixings.

2.4m Fencing

Ref	Kit	Description
34101	3m Kit	2.4m high fencing - 3m wide panel, 1 in-line post and all fixings.

NB CORNER POSTS and FIXING KITS are available as spare parts.

ULTRA MESH GATES & ACCESS CONTROL

4D adjustable
anti-lift-off hinge

Security Handle/Lock

Our gates are manufactured from galvanised steel with matching mesh infill, then polyester powder coated in RAL 6005 Green

Gate kits come supplied with our unique hinge sets with integral industrial locks, 3 keys and steel drop bolts

Single leaf

Ref	Height	Description
35101	1.8m	1.2m wide single leaf gate including hinge sets, locks, keys and steel drop bolts.
35102	2.0m	
35103	2.4m	

Gates are available with a range of access solutions. Please call for assistance.

Double leaf

Ref	Height	Description
36101	1.8m	4.0m wide single leaf gate including hinge sets, locks, keys and steel drop bolts.
36102	2.0m	
36103	2.4m	

Code Lock

Mag Lock

Fire Escape

Child Proof Lock

GATE KITS

PALISADE GATE

- Single or double leaf
- Leaf Width: 1.2 to 10m
- Leaf Height: 1.8 to 3m
- Galvanised as Standard (PPC finish as on option)
- Option: Dig in or Bolt-down
- Kit contains all nuts, bolts and fixtures except for cement and ground anchor bolts

Leaf Height (mm)		Leaf Width (mm)	
Min.	Max.	Min.	Max.
1200	10000	1800	3000

MESH GATE

- For pedestrian and vehicle applications
- Flush finish (mesh is inlaid into the frame)
- Single or double leaf
- Leaf Width: 1.2, 4 and 5m
- Leaf Height: 1.8, 2, 2.4 and 3m
- Option for twin mesh (656 or 868), for V-Mesh and for 358 prison mesh
- RAL Available: Green 6005, Black 9005, Blue 5010, Red 3020, Brown 8014, Grey 7037
- Option: Dig in or Bolt-down
- Includes sliding latch bolt
- Kit contains all nuts, bolts and fixtures except for cement and ground anchor bolts

Leaf Height (mm)	Leaf Width (mm)
1800, 2000, 2400 and 3000	1200, 4000, 5000

MORE THAN STEEL

BOW TOP FENCE & GATE KITS

BOW TOP GATE KIT

- For pedestrian and public applications (hardwearing and child-safe)
- Single or double leaf
- Galvanised steel
- RAL Available: Green 6005, Black 9005, Blue 5010, Red 3020, Brown 8014, Grey 7037
- Option: Dig in or Bolt-down
- Includes sliding latch bolt
- Kit contains all nuts, bolts and fixtures except for cement and ground anchor bolts

Standard Leaf Heights (mm)	Standard Leaf width (mm)	
	Single	Double
1000, 1200, 1500, 1800, 2100, 2400	2000, 3000, 4000, 5000	6000, 7000, 8000, 9000, 10000

BOW TOP PANEL

- Non-raking railing modular system
- Galvanised steel, Polyester Powder Coating (Standard RAL colours)
- Standard bay Width: 2.75m (distance between post centres)
- Standard Height: 1, 1.2, 1.5, 1.8, 2.1 and 2.4m
- Option: Dig in or Bolt-down

Standard Heights (mm)	Standard bay width (mm)
1000, 1200, 1500, 1800, 2100, 2400	2750

ULTRABOW RAILING SYSTEM

- **Standard 3000m bay width** (for quicker installation).
- **Easy to erect.**
- **Low maintenance.**
- **Self raking**
- **Matching gates available** (call for details).
- **Can be powder coated any colour**

The UltraBow system is developed for easy installation and supplied with pre-assembled panels that simply bolt into place.

Featuring a patented racking joint system gives the installer up to 20 degrees of installation angle instantly.

Ref	Height	Description
-	1000mm	3000mm systems come with all fixings (additional spar parts available on request). A third rail comes as standard on 2.4m high systems.
-	1200mm	
-	1500mm	
-	1800mm	
-	2000mm	
-	2100mm	
-	2400mm

GRP BENEFITS

- Chemical & Corrosion-resistant: ideal for waste and water treatment industries
- Chemical-resistant: ideal for petrochemical projects
- Light weight: ideal for transport & rail sector
- Fire retardant: ideal for offshore/marine applications
- Non-conductive and non-magnetic: ideal for the power distribution market
- Maintenance free: Long life cycle
- Low installation and fabrication cost: Economical material
- Anti-slip: help to meet Health & Safety and DDA regulations
- Impact-resistant: as strong as steel but 60% lighter

MORE THAN STEEL

GRP SAFETREADS

- Moulded Square grating
- Similar look to steel flooring
- For wide span applications (up to 1.5m based on 5 Kn/m² load factor)
- Gritted anti-slip top surface.
- Available in Grey (RAL7043), Yellow (RAL1023) & Green (RAL6017) with Hi-Vis to suit

GRP SAFECOVERS

- Standard 6mm thick with a 55mm deep drop (available up to 60mm)
- Standard size – 1200mm x 300mm
- (other sizes on demand)
- Standard Colours – Grey / Yellow or Black / Yellow
- (Complete with a Nosing colour to suit)
- Ideal for retrofit and provide good anti-slip surface
- DDA compliant

GRP SAFENOSE

- Gives added anti-slip factor to existing Stairs
- Available in two sizes: 55mm x 55mm & 55mm x 70mm
- 3000mm lengths
- Standard colours – Black , White or Yellow
- Easy fit – Screw or Glue
- DDA compliant

GRP SHEETS

- Ideal to re-vamp old flooring and provide an anti slip surface
- Standard thickness is 3mm – Other thickness's on request.
- Standard panel sizes are 3000mm x 1000mm.
- Easy to fit – screw or glue
- Standard colours – Black & Yellow (other colours available)
- Fire-resistant to BS 476, up to Part 7, Class 2 & Phenolic

Finishing:

- Smooth / Crinkle
- Smooth / Smooth
- Smooth / Leatherette
- Crinkle / Crinkle
- Leatherette / Leatherette
- Smooth / Smooth
- Smooth / Resotex
- Others on request

MORE THAN STEEL

GRP PROFILES

- Pultruded Structural profiles
- Made from glass reinforced isophthalic polyester resin reinforced with E glass fibre and including continuous strand mat and a polyester surface veil as the surface layer
- Ultra light weight with extra strength
- Low electrical and thermal conductivity
- 6m length
- Available in Grey, Yellow & White.

FLASHINGS

WHAT WE OFFER

The construction industry demands a wide and varied range of products to finish metal buildings and close the joints where building elements meet. These include everything from standard perimeter flashings to ridge closures and drip flashings. If an attractive, functional finish is needed to complete a metal building envelope then the sensible choice for flashings is here.

Available in a range of colours, we can supply highly finished flashings that are expertly manufactured, delivered on-time and perfectly match, complement or contrast the roof and wall cladding. Ridge vents are available for ventilated constructions, especially useful to complement the DRIPSTOP condensation control fleece.

RIDGE  Ref: 7101	RIDGE WITH STIFFENERS  Ref: 7102	RIDGE WITH WELTS  Ref: 7103	MONO RIDGE  Ref: 7104
BARGEBOARD  Ref: 7105	BARGEBOARD WITH STIFFENERS  Ref: 7106	SQUARE DOWNPIPE  Ref: 7107	SHADOWLINE BARGEBOARD  Ref: 7108
VALLEY GUTTER  Ref: 7109	TRIM/wATER  Ref: 7110	BARGEBOARD WITH WELTS  Ref: 7111	EXPANSION JOINT  Ref: 7112

Product Selection Guide

To help you make the right selection we have devised a classification system to guide you through the products.

FREQUENT TRADE USE

These products are for trade use and are manufactured to take more wear and tear. They are designed for frequent use.

BRITISH MADE

Products made in Britain.

EXTREME TRADE - FREQUENT USE

Products designed to be used in a more demanding and extreme environment. These are made for frequent use.

LYTE

Lyte Ladders and Towers have been manufacturing high quality access products in South Wales for over 70 years. Since its inception in 1947 Lyte has been recognised as one of the leading manufacturers in the trade and industrial sector with a reputation for innovative and quality products.

- Products are manufactured at the Lyte Ladders and Towers Ltd premises in the UK.

- All products are kitemarked and certified by the British Standards Institute, where applicable to ensure you are getting the best products possible.

INDUSTRIAL ALUMINIUM SWINGBACK STEPLADDERS

This range of ladders is ideal for trade use and is tested to a durability test of 50,000 cycles.

- Tested & certified to New EN131-2, Professional
- Improved stiles and strengthened treads as well as reinforced platform in line with the new standard requirements
- Unique strengthening beam incorporated into non-slip treads, rubber feet, and twists as there are no tapes to snap, or flimsy arms to break
- Rigid box section back legs with additional cross braces and 'k' straps for increased strength and stability
- Lightweight and easy to carry
- Lower bottom tread to avoid bending of front feet
- Aluminium top tread
- British Made
- Maximum capacity load of 150kg

Ref.	Open Height (M)	Open Depth (M)	Open Width (M)	Closed Height (M)	Closed Width (M)	Closed Depth (M)	Treads	Weight (Kg)
NESS6	1.2	0.95	0.46	1.39	0.46	1.35	6	6.00
NESS8	1.68	1.31	0.5	1.86	0.5	1.35	8	8.00

MORE THAN STEEL

EN131 PLATFORM STEPLADDERS

Strong, lightweight aluminium platform ladder range.

- Certified to the new EN131-2 standard
- Slim design – ideal for storage and transport
- Rubberised feet provide slip resistance and floor protection
- Fitted with high tensile straps

Ref.	Treads	Closed Height (mm)	Open Height (mm)	Platform Height (mm)	Working Height (mm)	Foot-print (mm)	Width (mm)	Weight (Kg)
NENPL6	6	1943	1837	1210	3210	1075	479	6.00

TRADE GLASSFIBRE SWINGBACK STEPLADDERS

American style glassfibre swingback stepladder certified to EN131-2.

- Non conductive to 30,000 volts and so the ladder is ideal for use where electrical hazards exist
- Exceptional integral tool tray for equipment when in use.
- All treads are double riveted to provide extra strength for the user

Ref.	Open Height (M)	Closed Height (M)	Treads	Weight (Kg)
NGFHS4	1.08	1.22	4	5.41
NGFHS6	1.65	1.75	6	7.77

TRADE 2 SECTION LADDERS

Made in the UK and built from the best quality aluminium and certified to EN13-2 Professional for frequent and heavy duty work. Comes with a high quality stabiliser 800mm bar for maximum safety and stability.

Ref.	Open Height (M)	Closed Height (M)	Weight (Kg)
NELT230	4.88	2.92	12.00

- Tested & certified to New EN131-2, Professional
- Manufactured with D shaped rung for comfort when climbing
- Newly designed stabiliser bar which is easy to fit and reduces the risk of sideways slips and gives a larger and safer footprint
- British Made
- Maximum capacity load of 150kg

PLASTIC TUBE INSERTS

- Standard material: LD Polyethylene
- Standard stock colour black — many others available either from stock or on short lead times
- RAL colour matching available on most items
- Popular sizes have “ribbed shank” to suit a range of tube gauges

Tube Size mm	Gauge Range	Reference Number (Black)
12 x 12	3.0 - 4.9	9213B
25 x 25	1.0 - 2.0	9201B
25 x 25	2.0 - 3.2	9202B
30 x 30	1.0 - 2.0	9203B
30 x 30	2.0 - 3.0	9204B
